Title of the communication

Name and surname of the author 1 and presenter
Author 1 affiliation, Emailauthor1@eco.univ.pt

Name and surname of the author 2
Author 2 affiliation, Emailauthor2@stats.univ.pt

Keywords: Environment, Ecology, Statistics, Models.

Summary: The summary of the communication can be placed here in full or divided into sections below.

1 Introduction

The text should have no more than two pages.

The official languages of the First Luso-Galaico Meeting of Statistics on Environment and Ecology are Portuguese and Galician or Spanish. Consequently, it is expected that all abstracts are submitted in one of these languages except for participants, who are not proficient in any these languages, that may submit abstracts in English. However, note that the slides for the oral presentations or posters may be written in English.

2 Use of structure

Here is an example of table, referenced by table 1.

Factor 1	Factor 2	Response	
1	1	0.12	2.01
	2	1.12	1.98
2	1	0.99	2.33
	2	1.15	1.89
3	1	1.50	2.13
	2	2.00	2.08

Table 1: Table example

References should appear in a separate section. The formats for the various types of references should conform to the examples included therein. Thus, to refer to Paulino, Amaral Turkman and Murteira (2003) or just the book [2], as well as Nunes et al. [1] or [3].

3 Conclusion

Some final considerations, which the authors think useful, can be included here.

Acknowledgments
